Data Flow Diagram

DFD Symbol legend table

Symbol	Name	Description
Oval / Rounded shape	External Entity	A user, government agency, researcher, or development organization that provides HDI indicators to the system and receives the predicted Human Development Index (HDI) category.
Rectangle with numbered header	Process	A process that validates the input data, analyzes the development indicators using a Machine Learning model, and predicts the appropriate HDI category (Very High, High, Medium, or Low).
Rectangle (solid fill, no number)	Data Store	A repository that stores the HDI dataset containing information such as life expectancy, education indicators, Gross National Income (GNI), and HDI categories used for training and prediction.
Labeled arrow	Data Flow	Represents the movement of data between the external entity, processes, and data store, such as HDI input indicators, validated data, prediction results, and reports.
