

Project Executable Files

Date	15 March 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Project Executable Files

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA (CSV dataset used instead of a database)
5	Environment configuration file (.env.example or similar)	No (or Yes, if you create one)
6	Deployed application URL (if hosted)	No (Add the URL if deployed)
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	Yes
10	Demo video or walkthrough (if required)	Yes (or No, if not created yet)

Step 2: File / Folder Structure

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	
Login Credentials (Demo)	
Platform / Hosting Provider	
Repository Link	
Demo Video Link	

Step 4: Run Instructions

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Prediction accuracy depends on the quality and completeness of the dataset.	Use an updated and well-preprocessed HDI dataset.
2	The application currently uses a local CSV dataset and does not fetch live data.	Future enhancement: integrate live data from UNDP or World Bank APIs.
3	The current version supports only HDI category prediction and does not provide detailed recommendations.	Future enhancement: add personalized development recommendations and dashboards.
